

RESOLUTION OF THE GOVERNMENT OF THE CZECH REPUBLIC

of 15 April 2015 No. 268

**on the Action Plan for the Deployment of Intelligent Transport Systems (ITS) in the
Czech Republic until 2020 (with a Prospect of 2050)**

The Government

- I. approves** the Action Plan for the Deployment of Intelligent Transport Systems (ITS) in the Czech Republic until 2020 (with a Prospect of 2050) - (hereinafter the "Action Plan") as the strategic document of the Ministry of Transport relating to the application of cutting-edge detection, diagnostic, information, control and security technologies based on intelligent transport systems, global navigation satellite systems and Earth observation systems;
- II. imposes**
 1. on the Minister of Transport, in co-operation with the Ministers of Industry and Trade, Interior, Environment and Regional Development, to implement the Action Plan's objectives and principles;
 2. on the Minister of Transport to submit to the Government
 - a) by 31 December 2015 the Implementation Plan of the Action Plan;
 - b) by 30 June 2018 the Interim Report assessing the implementation of the Action Plan;
 - c) by 31 December 2020 the Summary Report assessing the implementation of the Action Plan, including a draft update of the Action Plan or the draft of a new ITS document for the following period;
- III. recommends** to the regional council presidents and mayors of statutory cities to use the Action Plan principles as a basis for planning transport services within their respective territories.

To be implemented by:

Minister of Transport, Minister of Industry and Trade,
Minister of Interior, Minister of Environment,
Minister of Regional Development

For the attention of:

regional council presidents
mayors of statutory cities

Mgr. Bohuslav Sobotka, in his own hand
Prime Minister
