

Annex to Chapter 2.3: Assessment of the fulfilment of ex-ante conditionalities

Final opinion on the assessment of the fulfilment of ex-ante conditionalities following the approval of programmes is not affected by the assessment at the Partnership Agreement level.

IA/ Identification of applicable THEMATIC (ERDF, ESF, CF, EAFRD) ex-ante conditionalities and assessment of their fulfilment at the national level

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
1.1. Research and innovation: The existence of a national or regional smart specialisation strategy in line with the National Reform Program, to leverage private research and innovation expenditure, which complies with the features of well-performing national or regional R&I	OP RDE, PA 1 OP RDE, PA 2 OP PGP, PA 1 OP EIC, PA 1	No	A national or regional smart specialisation strategy is in place that:	No	http://www.msmt.cz/strukturalni-fondy/ris3-strategie-cr http://www.vlada.cz/assets/media-centrum/aktualne/Strategie-mezinarodni-konkurenceschopnosti-Ceske-republiky.pdf http://www.vyzkum.cz/FrontClanek.aspx?idsekce=682145 http://www.mpo.cz/dokument119071.html	<p>The national RIS 3 strategy is prepared by the MEYS and will become part of national RDI policies. The document will describe the links to the existing strategic documents in the field of RDI as well as links to various sources of funding. In accordance with the draft Commission Regulation on the ex-ante conditionalities, an RIS 3 action plan has been prepared which summarizes the conceptual approach of the Czech Republic to this conditionality and contains a description of steps which have already been taken as well as steps which are yet to be taken in order for the conditionality to be fulfilled, together with the schedule of activities and identification of responsible entities. The action plan is regularly updated and sent to the Commission for information. Its final version is attached to the relevant operational programmes – OP RDE, OP EIC and OP Prague – Growth Pole of the Czech Republic (for more information see the Action Plan).</p> <p>Supplementary information: ICS and the mechanism of its implementation.</p> <p>2013 Update of the National Research, Development and Innovation Policy of the Czech Republic 2009–2015 with an outlook to 2020.</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
systems.						Concept of Support for Small and Medium-Sized Enterprises 2014–2020.
			<ul style="list-style-type: none"> is based on a SWOT or similar analysis to concentrate resources on a limited set of research and innovation priorities; 	No		Update of the National Research, Development and Innovation Policy of the Czech Republic 2009–2015 with an outlook to 2020 (the "NRDIP Update"), ICS and the Czech National Innovation Strategy (NIS) are based on detailed analytical data. The National RIS 3 Strategy has been prepared following current strategic documents of the Czech Republic (NRDIP Update, NIS, ICS for the period 2012–2020, Oriented Research Priorities etc.), but also relies on its own new analyses (including a SWOT analysis), which provide a framework to more accurately target the proposed interventions. RIS 3 specialization areas (vertical and horizontal priorities) will be further refined in relation to the multi-stage process of negotiations, applying the principle of "entrepreneurial discovery", and also in relation to the elaboration of Regional Annexes and the application of the "entrepreneurial discovery" principle in each region. The RIS 3 will be closely linked with the forthcoming relevant operational programmes for 2014+ (OP RDI, OP EIC and OP Prague – Growth Pole of the Czech Republic).
			<ul style="list-style-type: none"> outlines measures to stimulate private RTD investment 	No		In the context of the forthcoming RIS 3, the explanation under the first criterion also applies to this criterion. The ICS, the NIS, and the NRDIP Update place special focus on these issues.
			<ul style="list-style-type: none"> contains a monitoring mechanism. 	No		In the context of the forthcoming RIS 3, the explanation under the first criterion also applies to this criterion. The RIS will include a set of monitoring indicators which will monitor the fulfilment of the RIS 3. Given that RIS 3 will be implemented in particular through operational programmes supporting RDI (see

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						above), these monitoring indicators will to some extent overlap with the monitoring indicators of individual operational programmes (but they will also include other indicators, specific to the needs of monitoring and assessing the RIS 3).
			A framework outlining available budgetary resources for research and innovation has been adopted.	No		The general framework for defining the available budgetary resources and priorities for RDI funding includes NRDIP (and its updates). It provides the basis for the principles of preparation of the RDI budget and then the budget draft and medium-term budget outlook for RDI, processed by the Research, Development, and Innovation Council. RIS 3 will be part of the NRDIP.
1.2. Research and Innovation infrastructure. The existence of a multi-annual plan for budgeting and prioritisation of investments.	OP RDE, PA 1	Yes	An indicative multi-annual plan for budgeting and prioritisation of investments linked to Union priorities, and, where appropriate, the European Strategy Forum on Research Infrastructures (ESFRI) has been adopted.	Yes	http://www.mfcr.cz/cs/legislativa/legislativni-dokumenty/2013/zakon-c-4752013-sb-16365 http://www.vyzkum.cz/FrontClanek.aspx?idsekce=653383 http://www.vyzkum.cz/FrontClanek.aspx?idsekce=684770	<p>The RDI budget for 2014, with a medium-term outlook for 2015 and 2016, was approved on the basis of Act No. 475/2013 Coll. Research, Development and Innovation Council (RDIC) has already started work on the preparation of RDI expenditure for 2015, with a medium-term outlook for the years 2016 and 2017.</p> <p>The multi-year budget plan is adopted by the RDI Council within the implementation of the Act on the National Budget.</p> <p>The Czech Government Resolution No. 552 of 19 July 2012 approved the National Priorities of Oriented Research, Experimental Development and Innovation. The priorities are valid until 2030.</p> <p>The Implementation of the National Priorities of Oriented Research, Experimental Development and Innovation was approved by the Czech Government Resolution No. 569 of 11 July 2013. The document creates a thematic plan and the time schedule for the announcement of the RDI programmes until 2030 within the context of targeted support and in relation to the Priorities and the NRDIP Update 2009–2015 with an outlook to 2020.</p>

2.1. Digital growth: A strategic policy framework for digital growth to stimulate affordable, good quality and interoperable ICT-enabled private and public services and increase uptake by citizens, including vulnerable groups, businesses and public administration	OP EIC, PA 4 IROP, PA 3	Partially	A strategic policy framework for digital growth, for instance, within the national or regional smart specialisation strategy is in place that contains:	Partially	http://www.mpo.cz/dokument83642.html http://www.mpo.cz/assets/cz/e-komunikace-a-posta/Internet/2013/4/Digi_esko_v.2.0.pdf http://www.mpo.cz/dokument119071.html	<p>The measures are contained in the following documents:</p> <ol style="list-style-type: none"> 1. State policy in electronic communications - Digital Czech 2. "Digital Czech Republic 2.0 – The Way to a Digital Economy" 3. Concept of Support for Small and Medium-Sized Businesses for the 2014-2020 period. 4. Strategic framework for the development of public administration in the Czech Republic 2014–2020 (the "Strategic framework for the development of PA") <p>The implementation of the ICT and Strategic Services Programme is continuously appraised (OPEI support programme).</p> <p>From the perspective of OP EIC interventions, the strategic framework has been created.</p> <p>The strategic framework will also be supplemented and completed by the National Smart Specialisation Strategy (the RIS3 Strategy) – for more detailed information, see Conditionality 1.1.</p> <p>An action plan to fulfil the conditionality has been prepared.</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
			<ul style="list-style-type: none"> budgeting and prioritisation of actions through a SWOT or similar analysis consistent with the Scoreboard of the Digital Agenda for Europe; 	Yes	http://www.mpo.cz/assets/cz/e-komunikace-a-posta/Internet/2013/4/Digi_esko_v.2.0.pdf http://www.mpo.cz/dokument119071.html	<p>The Digital Czech Republic 2.0 document contains the primary objectives of the Government until 2020, including a summary of the analyses carried out prior to the processing of the strategic document on the basis of data from the Czech Telecommunication Office and the Czech Statistics Office. On the basis of these analyses, Digital Czech Republic 2.0 is built on the following three pillars: support for the development of high-speed internet access networks; improved access to digital services and the development of these services; and the strengthening of the digital literacy and electronic skills of the network and services users. These three pillars have been defined without any temporal aspect and fully correspond with the purpose and intent of the Digital Agenda for Europe. In addition, they are further elaborated through proposed measures. For this reason, the mainstay financial management and economic aspects are continuously monitored through the regular reports published by the Czech Statistical Office. See, for example, the latest version of the materials entitled:</p> <p>Information and Communication Technology in the Entrepreneurial Sector in 2013; Information Economy in Numbers for 2013; and Information Society in Numbers for 2013.</p> <p>Concept for Supporting Small and Medium-sized Enterprises during the 2014-2020 Period, which contains an analysis of the SME sector in relation to ICT.</p>
			<ul style="list-style-type: none"> an analysis of balancing support for demand and supply of ICT should have been conducted; 	Yes	http://www.mpo.cz/dokument83642.html http://www.mpo.cz/assets/cz/e-komunikace-a-posta/Internet/2013/4/Digi_esko_v.2.0.pdf http://www.mpo.cz/dokument119071.html	<p>The primary objective of the Digital Czech Strategy is to reduce the "digital divide" in terms of access to high-speed internet between rural settlements and towns/cities. The Digital Czech 2 contains an appraisal of the existing offer of availability of high-speed Internet access and the need for its support. It also includes selected socio-economic and other analyses, obtained primarily from the reports published by the Czech Statistical Office. The</p>

						<p>region.</p> <p><u>Strategic framework for the development of PA: Strategic Framework for the Development of PA deals with the issue under subsection <i>Increase in the availability and transparency of public administration through eGovernment tools.</i></u></p> <p>Specific measures are to be taken in the Implementation Plan to this Strategic Framework of Development to the PA, which envisages, respecting the four-layer architecture principle, the following:</p> <ul style="list-style-type: none"> - expansion, interconnection and consolidation of public administration data fund and its efficient and safe use for individual agendas also on the basis of the "open data" principle, which will be based on sharing once acquired data in order to make such data available to other public administration and non-public administration entities, in particular to ensure full electronic submission¹ and computerization of agendas (e.g. eCulture, eHealth, e-Justice, eProcurement, eLegislative, eSbirka and electronic identification and authentication)²; - modernization of information and communication systems for the specific needs of public administration bodies and IRS; - support for the establishment and equipment of public authorities for the protection of ICT infrastructure and ensuring a controlled and secure sharing of public administration data.

² The majority of the measures will be implemented by means of a description of the current state, its risk analysis, description of the "TO-BE" state, especially with regard to architectural consistency, and a set of transit projects enabling transition from the "AS-IS" to "TO-BE" state.

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>The plan also envisages:</p> <ul style="list-style-type: none"> - the creation of a conceptual and strategic material which will obligatorily regulate the conditions in the area of ICT in terms of compliance with the 3E principles; - the creation of a <i>control strategy for investment in ICT</i>; - support for open-data publication according to <i>the Methodology for the publication of open data of public administration</i>; - amendment to Act no. 365/2000 Coll. and other regulations governing the area of eGovernment in the Czech Republic. - the role of the Head Architect will be adjusted to ensure architectural consistency of the operated eGovernment elements by binding opinions issued by the Office of the Head Architect for all ICT projects of the public administration.
			<ul style="list-style-type: none"> • assessment of needs to reinforce ICT capacity-building. 	Yes	<p>http://www.mpo.cz/assets/cz/e-komunikace-a-posta/Internet/2013/4/Digi_esko_v.2.0.pdf</p> <p>http://www.mpo.cz/dokument119071.html</p> <p>http://www.czso.cz/csu/redakce.nsf/i/informacni_ekonomika</p>	<p>The area is part of the Digital Czech Republic 2.0, which highlights the problematic areas, especially with regard to the regulatory framework of services and electronic communications networks.</p> <p>Measures to support the building of communication infrastructure and achieving effective competition are to be complemented by initiatives on the demand support side, which will increase the motivation of consumers and entrepreneurs to use communication services, create new business models and integrate them into everyday life. It is especially important businesses and the state that have to play an active role.</p> <p>Strategy to support small and medium-sized enterprises 2014–2020 (Chapter 4.9).</p> <p>Also crucial are the data from Internet Economy in Numbers (published annually by the CZSO) and Information about the Development of the Electronic Communications Market (prepared by the CTO).</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
2.2. Next Generation Network (NGN) Infrastructure: The existence of national or regional NGN Plans which take account of regional actions in order to reach the Union high-speed Internet access targets, focusing on areas where the market fails to provide an open infrastructure at an affordable cost and of a quality in line with the Union competition and State aid rules, and to provide accessible	OP EIC, PA 4	No	A national or regional NGN Plan is in place that contains:	Partially	http://www.mpo.cz/dokument83642.html http://www.mpo.cz/assets/cz/ekomunikace-aposta/Internet/2013/4/Digi_esko_v_2.0.pdf http://www.mpo.cz/dokument119071.html	The measures are contained in the Government-approved document "State policy in electronic communications – Digital Czech Republic" and the document "Digital Czech Republic 2.0 - Journey to the digital economy", which is approved by the Government, and in the Strategy to support small and medium-sized enterprises 2014–2020. As becomes apparent based on the Digital Czech Republic 2.0 document, an infrastructure facilitating access to high-speed internet, which is based on optic fibre cable technology, is considered to be appropriate for most locations in the Czech Republic from the long-term perspective. National Plan for the Development of the Next Generation Networks will be prepared, based on the above Digital Czech Republic 2.0 and the evaluation of the mapping of infrastructure to provide high-speed Internet access in the Czech Republic. An action plan to fulfil the conditionality has been prepared.
			<ul style="list-style-type: none"> a plan of infrastructure investments based on an economic analysis taking account of existing private and public infrastructures and planned investments; 	Partially	http://www.mpo.cz/assets/cz/ekomunikace-aposta/Internet/2013/4/Digi_esko_v_2.0.pdf	The document Digital Czech Republic 2.0 is built on three pillars (priorities), one of which is to support the development of high-speed internet access networks. National Plan for the Development of the Next Generation Networks will be prepared, based on the above Digital Czech Republic 2.0 and the evaluation of the mapping of infrastructure to provide high-speed Internet access in the Czech Republic. An action plan to fulfil the conditionality has been prepared. The Czech Telecommunication Office is currently executing and evaluating the mapping of infrastructure for providing high-speed Internet access. This process also involves identifying the objectives of relevant entities in terms of their plans to invest in building the high-speed Internet infrastructure. Further criteria for granting support, (prioritisation of certain areas, the amount of the allocation or subsidy) will be defined as required on the basis of the analysis of the results of the mapping process. The key indicator will be the

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
services to vulnerable groups.						number of households that will ultimately have access to high-speed Internet with a speed of at least 30 Mbit/s.
			<ul style="list-style-type: none"> sustainable investment models that enhance competition and provide access to open, affordable, quality and future- proof infrastructure and services; 	Partially	http://www.mpo.cz/assets/cz/ekomunikace-aposta/Internet/2013/4/Digi_ esko_v_2.0.pdf	<p>The Digital Czech Republic 2.0 document assesses small municipalities and locations with a low population concentration, i.e. those areas where the market mechanisms fail, as being particularly problematic.</p> <p>National Plan for the Development of the Next Generation Networks will be prepared, based on the above Digital Czech Republic 2.0 and the evaluation of the mapping of infrastructure to provide high-speed Internet access in the Czech Republic. An action plan to fulfil the conditionality has been prepared.</p> <p>The Czech Telecommunication Office is currently executing and evaluating the process of mapping infrastructure for providing high-speed Internet access in the Czech Republic. It is possible to presume that the resulting study, which will be based on the results from the mapping process, will determine the investment model "Private design, Built, and Operate (see the Guide to Broadband Investments) to be the most appropriate.</p>
			<ul style="list-style-type: none"> measures to stimulate private investment. 	Partially	http://www.mpo.cz/dokument83642.html http://www.mpo.cz/assets/cz/ekomunikace-aposta/Internet/2013/4/Digi_ esko_v_2.0.pdf	<p>The measures are contained in the Government-approved document "State Policy in Electronic Communications – Digital Czech Republic".</p> <p>The updated State Policy, Digital Czech Republic 2.0, includes several tools and steps for facilitating the private investments in the infrastructure.</p> <p>National Plan for the Development of the Next Generation Networks will be prepared, based on the above Digital Czech Republic 2.0 and the evaluation of the mapping of infrastructure to provide high-speed Internet access in the Czech Republic. An action plan to fulfil the conditionality has been prepared.</p> <p>The developments at the level of the EU legislation are also of key importance, and, for this reason, it is necessary to take into account particularly the</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						proposed directive on the measures to reduce the cost of deploying high-speed electronic communications networks. The legislative process for this proposed directive is in the final stages, and thus it is possible to presume that the implementation of this directive will override some of the measures proposed in the Digital Czech Republic 1 as well as in the Digital Czech Republic 2 documents.
3. 1 Specific actions have been carried out to underpin the promotion of entrepreneurship taking into account the Small Business Act (SBA).	OP EIC, PA 2 OP PGP, PA 1	Partially	The specific actions are:	Partially		<p>The Government adopted the International Competitiveness Strategy (ICS) in 2011.</p> <p>http://www.vlada.cz/assets/media-centrum/aktualne/Strategie-mezinarodni-konkurenceschopnosti-Ceske-republiky.pdf</p> <p>The ICS states the implementation of measures designed to implement the Small Business Act in Project Plan 36.</p> <p>The measures are also part of the National Reform Programme (2014), chap. 4.2 (NRP does not directly address the issue of SBA implementation).</p> <p>http://www.vlada.cz/assets/evropske-zalezitosti/aktualne/NPR-2014.pdf</p>
			measures have been put in place with the objective of reducing the time and cost involved in setting-up a business taking account of the targets of the SBA;	Partially	<p>Trade Licensing Act (also referred to as the Small Business Act):</p> <p>http://www.mpo.cz/dokument104038.html</p> <p>Act no. 304/2013 Coll., on public registers of legal and natural persons (in force since 30 September 2013, effective from 1 January 2014,</p> <p>http://www.sbirka.cz/POSL4TYD/NOVE/13-304.htm)</p>	<p>For self-employment (competence of the MIT), Act No. 130/2008 Coll. reduced the cost of entry into self-employment and the time for issuing the licence establishing the right to conduct business (from 15 to 5 working days). The licence can be obtained under the conditions defined in the Trade Licensing Act in a very short time (within less than an hour, or on a “while you wait” basis). Entry cost is CZK 1,000.</p> <p>Act No. 304/2013 Coll. establishes the obligation of the courts to register a company within five working days. At the same time, it also allows the entry to be made by a notary. If all of the required documents are available to the notary, this entry will be made within one day.</p> <p>Regarding the cost of starting a business:</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>In accordance with the prepared Action Plan, the Ministry of Justice is preparing a legislative solution that will decrease the court fee for initiating the public registry proceedings for the first entry of an entity/individual in the public register, with the exception of joint-stock companies and associations, in accordance with the European Commission's requirements, i.e. in a way that the costs associated with starting up an enterprise are around EUR 100. At the same time, there will be a reduction that even exceeds the European Commission's requirements associated with the court fee for initiating the public registry proceedings associated with changing or supplementing an entry. The draft legislation should be submitted to the Government in September 2014, with planned entry into effect in November 2016.</p> <p>There are also other measures that would effectively reduce the total cost of setting up a business – e.g. the significant enhancement of cooperation between the individual state administration systems, and the creation of a new system of “basic registers” by means of Act No. 111/2009 Coll. of 26 March 2009, on basic registers, and its application to the setting up of enterprises, as well as the elimination of the duty to attach an extract from the Land Register together with the application to register a person and submit an extract from the Criminal Register as a proof on no prior convictions for each partner. Some savings may also result in relation to the direct registration performed by notaries according to the state as of 1 January 2014.</p> <p>The cost of setting up a business is also affected by the fact that, pursuant to the provisions of section 142 of Act No. 90/2012 Coll., on business companies and cooperatives (the Business Corporations Act), the minimum investment in a limited-liability company has been newly stipulated as just CZK 1.00 since 1 January 2014 as</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>compared to the old Commercial Code, where the required capital for a limited liability company was CZK 200,000. - CZK.</p> <p>All of these measures in their combination bring about reduced costs for small and medium-sized enterprises both when setting up and throughout their existence.</p> <p>The issue of fulfilling the criteria is dealt with by means of negotiations between the MIT, MJ and MoRD.</p>
		Yes	<ul style="list-style-type: none"> measures have been put in place with the objective of reducing the time needed to get licenses and permits to take up and perform the specific activity of an enterprise taking account of the targets of the SBA; 	Yes	<p>Trade Licensing Act (also referred to as the Small Business Act): http://www.mpo.cz/dokument104038.html</p>	<p>In the field of self-employment (competence of the MIT), an entrepreneur having met the conditions of the Act may start business activities already upon the notification of the licensed trade. Only licences for regulated licensed trades take longer to be issued (about one month after submitting the application). Act No. 130/2008 Coll. reduced the cost of entry into self-employment and shortened the time for issuing a document establishing the right to start up business activities (from 15 days to 5 working days).</p> <p>In the case of self-employment (i.e. obtaining a trade license under the Trade Licensing Act, which falls within the competence of the MIT), if all of the conditions laid down by law are met, the entrepreneur who reports his/her trade to the municipal trade licensing office, may start to carry out business activities from the time the trade is reported. Only for regulated licensed trades, which currently represent about 4% of all valid trade licenses and relate to activities for which the request for regulation is given by the need for increased protection of health, life and safety, the trade licence takes longer to be issued (about one month after submitting the application). Act No. 130/2008 Coll. reduced the cost of entry into self-employment and shortened the time for issuing a document establishing the right to start up business activities (from 15 days to 5 working days).</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>The MIT (in the field of licensed trades) is regularly adopting legislative measures to reduce administrative complexity and the time required to set up a business, for example by introducing electronic submissions, central registration point, cancelling the duty to notify changes if previously notified to another public administration body, etc.). Currently another amendment to the Trade Licensing Act is undergoing the legislative process. This amendment will, among other things, cancel the duty of entrepreneurs to submit documents proving facts such as the legal cause to use a place of business, professional qualification, etc., where these documents were previously submitted to any Trade Licensing Authority in the Czech Republic.</p> <p>Business activities can be carried out and the appropriate business licenses can also be obtained on the basis of other legal regulations (some of them are within the competence of the MIT).</p> <p>Comments concerning the area of competence of the Ministry of Justice:</p> <p>Act no. 304/2013 Coll. also allows notaries who prepare a notarial deed concerning a fact that it is to be recorded in a public register to make the record themselves, relieving the entrepreneur of the duty file another application to the registry court with jurisdiction.</p>

					http://www.c-budejovice.cz/cz/mesto/krizove-rizeni/stranky/krizova-dokumentace-a-plany.aspx	<p>crisis management at the regional level - the “Crisis Plans”⁸. Each region and municipality with extended powers is obliged to create a crisis plan, which takes into account all probable emergencies, including those linked to climate change (floods, droughts, landslides, torrential rain, large forest fires etc.) and is prepared by the Fire Rescue Service of the Czech Republic. The crisis plan includes an overview of the possible sources of risk and a threat analysis.⁹ In order to ensure uniform and systematic crisis plans, the Ministry of the Interior Directorate General of the Fire Rescue Service of the Czech Republic has prepared the Methodology for the Processing of Crisis Plans, which, amongst other things, describes the method of Development of Standardized Plans for the procedures dealing with the specific types of impending emergencies identified in the threat analysis. Standardised plans are plans for the individual types of emergencies, with recommended standardized procedures, principles and measures for their handling. The crisis plans are prepared in the form of operational plans that include a description of the emergency characteristics, the planned activity of the entities involved in its handling, and the appropriate measures, including the determination of responsibilities.</p>
			<ul style="list-style-type: none"> taking into account, where appropriate, national climate change adaptation 	Partially		<p>The forthcoming <u>Climate Change Adaptation Strategy in the Czech Republic</u> is the national strategy to adapt to climate change. The current</p>

⁸ The obligation to prepare a plan that includes a summary of emergency measures and procedures for crisis management (the so-called crisis plan) is assigned to the ministries and other central administrative authorities by Section 9(2)(b) of Act No. 240/2000 Coll., on crisis management and amending certain acts (the Crisis Act), as amended.

⁹ The crisis plan of the region is the basic planning document containing a summary of the emergency measures and procedures to deal with crisis situations, including those linked to climate change (floods, droughts, landslides, torrential rain, etc.). Its purpose is to create the required conditions for ensuring preparedness for emergency situations and their solutions for the crisis management authorities and other stakeholders. The subject of the crisis plan therefore includes the risks/threats arising from climate change, i.e. floods, torrential rains, landslides, etc. The contingency plans of the municipalities with extended jurisdiction are further elaborated in relation to the regional crisis plan. The required particulars for the crisis plans are defined in Section 15 of Government Regulation No. 462/2000 Coll., for the purpose of implementing Sections 27(8) and Section 28(5) of Act No. 240/2000 Coll., on crisis management and amendments to certain acts (the Crisis Act), as amended. The crisis plan is divided into three sections, namely the Basic, the Operational and the Auxiliary Sections. Crisis plans are a non-public documents, as they contain personal data of the natural persons, legal entities and self-employed individuals involved in the crisis planning process. Usually they are published only in the form of a list of content specifications.

						December 2013. At the same time, a tool for data storage and presentation was created, i.e. the Central Database System (see http://cds.chmi.cz), and the report was sent to the European Commission by 22 March 2014.
6.2. Waste sector: Promoting economically and environmental ly sustainable investments in the waste sector particularly through the development of waste management plans consistent with Directive 2008/98/EC, and with the waste hierarchy.	OP E, PA 3	Partially	An implementation report as requested by Article 11(5) of Directive 2008/98/EC has been submitted to the Commission on progress towards meeting the targets set out in Article 11 of Directive 2008/98/EC.	Yes	Completed according to the requirement of Art. 11(5) of Directive 2008/98/EC by sending a questionnaire on 16 October 2013 to the EC.	On 16 October 2013, the Questionnaire “For Member States’ reports on the implementation of the European Parliament and of the Council Directive 2008/98/EC on waste” was submitted to the European Commission, which the European Commission uses to determine the progress that has been made towards achieving the objectives set out in Article 11 of Directive 2008/98 EC.
			The existence of one or more waste management plans as required under Article 28 of Directive 2008/98/EC;	Partially	Government Regulation No. 197/2003 Coll. and Government Regulation No. 181/2013 Coll.	<p>The currently valid plan is the Waste Management Plan (WMP) of 2003. The Czech WMP was published by Government Decree No. 197/2003 Coll. of 4 June 2003 and has been prepared for a period of at least 10 years (originally until 1 July 2013).</p> <p>However, the applicability of the existing Czech WMP was extended until the end of 2014 by Government Decree No. 181/2013 Coll. of 19 June 2013, which became effective on 1 July 2013 and which amends Government Decree No. 473/2009 Coll.</p> <p>In May 2014, the SEA process concerning the newly prepared WMP CR was initiated.</p> <p>The new Czech WMP will be submitted to the Czech government by the end of 2014 so that it may be published by the relevant Government Decree (the new Czech WMP will be applicable from 1 January 2015). 1. The existing Czech WMP remains in force until then. This means that the Czech Republic will always have at least one WMP in force.</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>Situation as of 20 June 2014 – the new WMP CR passed the ICP, which was completed on 27 May 2014.</p> <p>On 23 May 2014 a screening proceedings were initiated concerning the new WMP CR pursuant to the Environmental Impact Assessment Act (SEA process).</p>
			The existence of waste prevention programmes, as required under Article 29 of Directive 2008/98/EC;	Partially	Presented to the government to take into consideration on 18 December 2013. 12. 2013.	<p>The issue of preventing the origination of waste has already been partially addressed in the currently valid Czech WMP. The Czech Republic's Programme for Preventing the Origination of Waste for 2014-2019 has already been prepared by the Ministry of the Environment in compliance with the requirements laid down in the Waste Directive and in accordance with the EC' Guidance Note. In August 2013, it passed through the intradepartmental comment procedure. It then underwent the interdepartmental comment procedure. In November 2013, the comments from the interdepartmental comment procedure were settled.</p> <p>The information regarding the progress in the preparation of the Programme was submitted to the Government on 18 December 2013. Furthermore, in accordance with the Waste Framework Directive and the EC Guidance Note, the document was published on 12 December 2013 on the ME website under the following link: http://www.mzp.cz/cz/predchazeni_vzniku_odpadu_navrh and then, on 13 December 2013, it was sent to the EC (DG ENVI – Waste Management Division) by e-mail. The draft Programme was subsequently also officially sent to the DG Environment on 2 January 2014 through the Permanent Representation of the Czech Republic in Brussels.</p>

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>The strategic environmental assessment (SEA) has been initiated. Following the SEA opinion, the Programme will be submitted to the Government of the Czech Republic for approval (8/2014).</p> <p>Situation as of 20 June 2014 – Expected completion of the SEA process in July 2014. Following the SEA opinion, the Programme will be submitted to the Government of the Czech Republic for approval and subsequently the Programme will be sent to the Commission. Deadline of the submission is the end of August 2014. The objectives and measures set out in the document are reflected in the draft new Waste Management Plan of the Czech Republic, which will become effective from 1 January 2015.</p>
			<p>Necessary measures to achieve the targets on preparation for re-use and recycling by 2020 consistent with Article 11(2) of Directive 2008/98/EC have been adopted.</p>	<p>Partially</p>	<p>Act No. 477/2001 Coll., on packaging, Section 9(10)</p>	<p>At the moment, the Czech Republic is gradually fulfilling the targets pursuant to Article 11(2) of Directive 2008/98/EC using the methodology chosen (two out of the offered by the EC). However, there is uncertainty due to the announced change of the EC methodology for calculating the fulfilment of these targets (the EC has already announced stricter rules that it intends to publish by the end of this year). This stricter calculation might put fulfilment of the target at risk.</p> <p>The separation network for waste from households and waste similar to waste from households continues to get denser in the Czech Republic, also with regard to Directive 94/62/EC on packaging and packaging waste (see Point 1).</p> <p>The PAYT system promoted by the Commission is in place in the Czech Republic and covers about 10–15% of households. The possibility to choose this system of payment for municipal waste is planned to be preserved in the new (currently under preparation) legislation (draft proposal for the</p>

The relevant mandatory national standards are listed in the description of measure 10 and 11.

Ex-ante conditionality	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfillment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
1305/2013						
7.1. Transport: The existence of a comprehensive plan or plans or framework or frameworks for transport investment in accordance with the Member States' institutional set-up (including public transport at regional and local level) which supports infrastructure development and improves connectivity to the TEN-T comprehensive and core networks.	OP T, PA 2	Partially	The existence of a comprehensive transport plan or plans or framework or frameworks for transport investment which complies with legal requirements for strategic environmental assessment and sets out:	Partially	www.dopravnistrategie.cz Transport Sector Strategies, Phase 2 - Medium-term plan for Transport Infrastructure Development with a Long-Term Outlook (2014–2020 with an outlook until 2040) The process of appraising the effects of the concept on the environment according to Act No. 100/2001 Coll., on Assessment of Environmental Impacts, as amended, was launched in December 2011 and was finalized by issuing the concurring opinion - see http://portal.cenia.cz/eiasea/detail/SEA_MZP129K . The State Fund for Transport Infrastructure (SFTI) as the Intermediate Body for the OTP and Road and Motorway Directorate (RMD) as the beneficiary have sufficient capacity and experience to implement the road projects (including major projects) and there are only minor shortcomings in terms of the prevention of irregularities with regard to the Public Procurement Act (PPA) and their timely identification.	The Transport Sector Strategies were approved by the Czech Government as the plan for transport infrastructure development and maintenance (on 13 November 2013, by means of Resolution No. 850/2013). The process for fulfilling this ex-ante conditionality was defined as follows: The approval of a sector strategy (Czech Republic has fulfilled this criterion) the further elaboration of the objectives in an Action Strategy Plan (background data for each member state to be delivered by JASPERS; it is expected that the Action Plan in the Czech Republic will be prepared by the end of April 2014). The Action Plan should specify the tasks that must be accomplished by 2016 and which concern the projects implemented in the period before 2023; The Transport Sector Strategies, Phase 2 – Medium-term Transport Infrastructure Development Plan with a Long-term Outlook (2014–2020 timeframe, with an outlook to 2040) includes an implementation schedule for the individual projects and specifies the sources of funding (aid schemes) for each project. Projects to be co-financed from the European Regional Development Fund or the Cohesion Fund are expected to be required to meet all of the necessary criteria. This is one of the reasons why chapters that directly deal with project preparation and thus guarantee fulfilment of this criterion have been included in the Transport Sector Strategies, Phase 2. Nevertheless, there is a high probability that these issues will be further elaborated in the prepared action plan (see above). The capacity of the intermediate bodies and beneficiaries to deliver the project can already be considered as very high. In spite of that, additional measures will be taken in this respect. Therefore, the capacity of the intermediate bodies and beneficiaries to deliver the project pipeline is

IB/ Specification of applicable GENERAL ex-ante conditionalities and their fulfilment at national level

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
1. The existence of administrative capacity for the implementation and application of Union anti-discrimination law and policy in the field of ESI Funds	Applicability will be documented in relevant programmes	Yes (fulfilment takes place on an ongoing basis and will take place throughout the programming period of 2014–2020)	Arrangements in accordance with the institutional and legal framework of Member States for the involvement of bodies responsible for the promotion of equal treatment of all persons throughout the preparation and implementation of programmes, including the provision of advice on equality in ESI fund-related activities;	Yes	http://www.ochrance.cz/en/discrimination/ http://www.vlada.cz/cz/ppov/zmocnenec-vlady-pro-lidska-prava/organizace-sekce-lp/organizace-sekce-lidskych-prav-107606/	<p>Based on the Anti-discrimination Act, the Public Defender of Rights was given the role of the national body for equal treatment and anti-discrimination pursuant to Union law. The ombudsman helps promote the right to equal treatment of all people regardless of their race or ethnic origin, nationality, gender, sexual orientation, age, disability, religion, belief or world view and, to that end, provides guidance to victims of discrimination when bringing an action based on discrimination, carries out research, publishes reports and issues recommendations on discrimination-related issues, ensures exchange of available information with relevant European bodies.</p> <p>However, the law in force and effect does not require the ombudsman to act as a consultative or educational body for government bodies in the field of non-discrimination. The ombudsman is completely independent of the executive and is only answerable to the Chamber of Deputies of the Parliament of the Czech Republic.</p> <p>Because of that, most tasks related to the applicable ex-ante conditionality of “The existence of administrative capacity for the implementation and application of EU anti-discrimination law and policy in the field of ESI Funds” are performed by the Office of the Government – Human Rights Section reporting to the human rights, equality and legislation minister, also in cooperation with the managers of MAs under individual programmes.</p> <p>The Public Defender of Rights closely collaborates with the Office of the Government in the exchange of necessary information and available knowledge when reviewing ESI fund-related activities not only to prevent discrimination but also to promote equal treatment of entities concerned and balance the opportunities of disadvantaged groups. He is also ready to cooperate with relevant representatives of public administration and experts from academia, the legal profession and civil society.</p> <p>To systematically secure and strengthen administrative capacity for efficient application and implementation of anti-discrimination law and policy in the field of ESI Funds, each MA is required to appoint a specific contact person, who systematically deals with the implementation and application of anti-discrimination law and issues of gender equality and people with disabilities, is responsible for coordinating activities in this field within individual programmes and cooperates closely with the Office of the Government – Human Rights Section and the MLSA, to whom it provides consulting and guidance at the request of the ombudsman if necessary.</p> <p>A representative of the OG – Human Rights Section is invited to programme platforms and will also be invited to the Monitoring Committees of individual programmes once the programmes have been approved. Also, the human rights, equality and legislation minister sits on the ESI Funds Council. A representative of the Human Rights Section of the Office of the Government is also invited to the meetings of the Working Group to</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>prepare Partnership Agreement. In addition, a representative of the ombudsman will attend monitoring committees for individual programmes and is also a permanent guest of the Funds Council."</p> <p>Specific fulfilment in programmes is described by the managing authorities under each programme.</p>
			<p>Arrangements for training for staff of the authorities involved in the management and control of the ESI Funds in the fields of Union anti-discrimination law and policy.</p>	Yes	<p>http://www.strukturalni-fondy.cz/cs/Fondy-EU/2014-2020/Metodicke-pokyny/Metodika-rozvoje-lidskych-zdroju</p>	<p>Schedules of training concerning equal treatment and non-discrimination have been prepared for all relevant employees collaboratively by the Office of the Government – Human Rights Section and the Public Defender of Rights. Fulfilment of this criterion is underway and will take place on an ongoing basis throughout the future programming period. Training is intensive at the beginning of the programming period and then provided on an as-needed basis in connection with the recruitment of new employees and programme implementation. Lecturers are experts with experience in issues of equal treatment and combating discrimination. Within the contents of the training, special attention is paid to the Romani minority. Appointed MA contacts are required to cooperate with the Public Defender of Rights and the Office of the Government – Human Rights Section on specifying an adequate training scope and content.</p> <p>The MoRD-NCA ensures at the horizontal level that employees implementing EU funds are trained under the Education System; the Human Rights Section of the Office of the Government provides content and lecturers for the training.</p> <p>The area of education is included in the Guidance Note on Human Resources Development in the Programming Period 2014–2020 and the Programming Period 2007–2013 (Government Resolution no. 444 of 16 July 2014).</p> <p>The overall objective of the Guidance Note is to set uniform requirements to ensure quality administrative capacities involved in the implementation of the objectives of the Partnership Agreement and individual activities in the implementation of programmes, and one of the specific objectives of the Guideline Note is to create a system of training for the employees who are involved in the implementation of EU funds in order for the system to meet their needs at their position described in the control documents of programmes, management and coordination of the PA, and create conditions to promote the principle of transparency and anti-corruption.</p> <p>The training provides for the conditions for stabilising and motivating implementation structure employees in relation to the needs of their professional growth and improvement of knowledge and skills.</p> <p>The offer of educational activities depends on the objectives of each programme and individual education plans created during employee appraisal.</p> <p>The training event dates are published on the Training and Education System's website.</p> <p>Educational events are reviewed regularly based on participants' feedback obtained from</p>

					ka/Stanoviska-expertni-skupiny-MMR-k-ZVZ http://www.portal-vz.cz/cs/Aktuality http://www.strukturalni-fondy.cz/cs/Fondy-EU/Narodni-organ-pro-koordinaci/Dokumenty http://mmr.cz/cs/Ministerstvo/Ministerstvo/Pro-media/Tiskove-zpravy/2014/Zakon-o-verejnych-zakazkach-pripravuje-siroke-kole	<p>A public procurement methodology guideline was prepared for the 2014-2020 programming period (Czech Republic Government Resolution No. 44 of 15 January 2014);</p> <p>The (national) methodology for the award of public contracts including the methodology for the award of small-scale public contracts has been prepared and published.</p> <p>A MoRD expert group's partial methodological opinions on / recommendations for the Public Procurement Act have been prepared and published.</p> <p>Discussions are underway with the professional public concerning proposed changes to national rules for public procurement.</p> <p>The public procurement act's sponsor maintains and uses its own internal database of cases which contains all the applications for public procurement legal rules interpretation received from the bodies of the implementation structure of the programmes of either the previous (2007-2013) or the current (2014-2020) programming period. This database is not intended for public access and the sponsor plans to make some changes to it. The sponsor also uses the database for collecting major recurrent cases, identifying the most friction-causing and recurrent issues about applying the public procurement rules. The data collected are a basis for updating legislation or methodology guidelines, planning educational events and providing legal aid and advice.</p> <p>The sponsor is planning adjustments to Info-forum on the Public Procurement and Concessions Portal.</p> <p>The Czech Republic has had the Office for the Protection of Competition (OPC) since 1996. The OPC creates conditions for promoting and protecting fair trading, conducts supervision over awarding public contracts and executes other powers as defined in separate legislation. In relation to ex-ante conditionality B.4 the OPC oversees awarding public contracts and granting public concessions. Doing this, the OPC adds to a higher transparency in spending public money, reviews acts of contracting authorities, conducts inspections at contracting authorities and takes part in drafting and amending public procurement and concession legislation. The OPC also plays an active role in educating the parties affected by the public procurement act. The OPC publishes its decisions, interpretation positions, methodology policies and public procurement current affairs on its website.</p> <p>In order to increase the effectiveness of monitoring activities of the OPC, a working group has been set up at the MoRD consisting of representatives of the OPC, MoRD and MF. This working group discusses the possibility to increase the efficiency of collaboration between Managing Authorities and other entities of the implementation structure in cooperation with the OPC with regard to internal procedure of Managing Authorities and other entities of the implementation structure when making a submission to the OPC. This working group also discusses standardization of the content of submissions.</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
			Arrangements to ensure administrative capacity for implementation and application of Union public procurement rules.	Partially	Partial hiring of staff for positions at the Department of Public Procurement and Concessions Law at the Ministry for Regional Development	<p>New obligations laid down in the Public Procurement Act and a larger number of public contracts awarded according to the Public Procurement Act required new employees for the above Department at the MoRD.</p> <p>At present, the MA fulfils the measure; it will also depend on the development and the number of announced calls.</p> <p>The date of extending administrative capacity will be different for each programme. Continuous fulfilment is expected starting from the first half of 2014, also according to availability on the labour market. The DPPCL Department at the MoRD (coordinator of the Public Procurement Act) has already been partially provided with additional administrative capacity. The issue of measures concerning administrative capacity was discussed with the representatives of all managing authorities at the meeting of the national Working Group Procurement, including aspects that should be taken into account when deciding on the size of the capacities. In determining the specific measures of the MAs, particular regard is taken of the specificities of individual programmes which have an impact on the number and complexity of the public contracts, and therefore on the size of administrative capacities</p> <p>The MAs prepare analyses of the needs for administrative capacities. These analyses plan the administrative capacities taking into account the smooth transfer of administrative capacities between 2007–2013 and 2014–2020 programming periods (ensuring the concentration of human resources to key activities, continuity and stability of teams).</p> <p>Specific fulfilment in programmes is described by the managing authorities under each programme.</p>
5. The existence of arrangements for the effective application of Union State aid rules in the field of the ESI Funds.	Applicability will be documented in relevant programmes	Partially – (fulfilment takes place on an ongoing basis, depending on the approval of EC regulations)	Arrangements for the effective application of Union State aid rules;	Partially	<p>Act no. 215/2004 Coll., amending certain relations in the field of state aid and amending the act on the promotion of research and development (http://www.uohs.cz/cs/legislativa/verejna-podpora.html)</p> <p>Decree no. 456/2009 Coll. on the data to be recorded in the central registry</p>	<p>From 1 January 2010 the Czech Republic has set up a central register of small-scale aid, which monitors all small-scale aid granted in the Czech Republic and was established in order not to exceed the maximum de minimis aid provided to one recipient for the relevant period of three fiscal years. Its existence is enacted in national law, specifically in Act no. 215/2004 Coll. The central register is also governed by Decree no. 465/2009 Coll. on the data to be recorded in the central registry The central registry includes all 4 regulations on de minimis aid, i.e. Regulation no. 1998/2006 (now Regulation no. 1407/2013), Regulation no. 360/2012, Regulation no. 875/2007 (now Regulation no. 1408/2013) and Regulation no. 1535/2007. Before providing small-scale aid, the provider must check the central registry whether the granting of the aid to the recipient will not exceed the limit for de minimis and record data on the aid granted and on the recipient to the central register within 5 working days from the date the aid was provided. Failure to comply with the above duty is considered an administrative infraction and the provider shall be fined for the administrative infraction by up to CZK 100,000. Therefore, this central register checks whether the maximum limit for de minimis aid has not been exceeded. The central register of small-scale aid also has its public version, which is available to the general public</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
					<p>Act No. 218/2000 Coll., on budgetary rules and amending certain related acts, as amended.</p> <p>Act No. 250/2000 Coll., on budgetary rules for territorial budgets, as amended.</p> <p>Act No. 320/2001 Coll., on financial audit in public administration and amending certain acts, as amended.</p> <p>Act no. 456/2011 Coll., on financial administration of the Czech Republic</p> <p>Methodology of financial flows and audit (http://www.mfcr.cz/cs/legislativa/metodiky/2014/metodika-financial-and-flow-control-prog-17121)</p> <p>Manual of services of general economic interest (http://www.uohs.cz/cs/verejna-podpora/manualy-methodology-and-</p>	<p>without the need to log-in. The provider must provide the aid in accordance with state aid rules (including the rules on cumulation), both national and Community rules.</p> <p>The Central register of small-scale aid was updated and brought into line with the requirements of the revised EU legislation.</p> <p>The data on aid provided from ESI funds will be collectively included in the monitoring system MS2014+ and will also be available on the "central website" in accordance with the requirements of the revised EU legislation. The MS2014+ covers data from the level of beneficiaries, providers (managing authorities) to the PCA and is subsequently integrated with the Commission system for ESI funds (SFC). The MS2014+ is used to administer all support applications from the relevant operational programmes, and in the new programming period 2014–2020 it will also be linked to the central de minimis register – this way, providers will only enter data into a single system from which the data will then be transferred to the central registry. This system will serve the central coordinator (MoRD-NCA) to monitor state aid granted to projects co-financed by ESI funds.</p> <p>Procedures for project administration, which are to ensure compliance with the cumulation rules are set out in the managing documents for each programme (e.g. in operating manuals, operating procedures). This documentation specifically details activities and persons responsible for their implementation. At the same time cumulation rules are detailed in the relevant calls in which managing authorities assume the provision of state aid and its cumulation. To ensure that the conditions arising from the Deggendorf case-law are met, the applicant must, before being granted aid, sign a statutory declaration in which the applicants represents that he has no outstanding financial obligations (from other projects or from EC decision to return funds).</p> <p>According to established practice, in the case of any amendment of an EC-approved programme or GBER programme providers approach the central coordinating authorities responsible for state aid (OPC, MA) with a request for consultation on the matter. The Coordinating Authority will recommend a procedure that will respect the rules for public aid (e.g. "re-notification" of the EC programme under GBER, implementation of a simplified notification, etc.).</p> <p>Providers may also at any time approach coordination authorities responsible for state aid with questions as to whether or not the measures they are going to provide constitute state aid. Within the inter-ministerial comment procedure, coordinating authorities also express their opinions on present legislative proposals, in which they analyse the proposed legislation in terms of state aid rules and give comments on how to adjust the legislation to make it consistent with state aid rules; where GBER, institute of services of general economic interest or the de minimis regime cannot be used, they recommend the provider to make a notification to the EC.</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
					<p>other-dokumenty.html)</p> <p>Central register of small-scale aid (http://eagri.cz/public/web/mze/farmar/registr-podpor-de-minimis/)</p>	<p>A final decision on the use of financial instruments in the programmes has not yet been made – the relevant managing authorities will decide on their implementation based on ex-ante evaluation and will subsequently set detailed procedures for the administration of these projects in the programme's management documentation. When setting the rules for the use of financial instruments, the providers will consult the coordinating authorities responsible for state aid rules so that the rules comply with the state aid rules.</p> <p>Calls containing support in the form of financial instruments will contain conditions required by state aid rules. All of these calls will be checked before their announcement. State aid rules are regularly consulted with the entities that implement financial instruments. Before being granted support, the beneficiaries of financial instruments must sign a legal document, which also contains the state aid rules and solemnly declare that they are aware of the legal framework for state aid.</p> <p>As the central coordinator, MoRD-NCA is preparing a guidance document for the area of financial instruments in ESI Funds in the programming period 2014–2020. A tender has been announced for the entity to prepare this document; its finalization is expected in the second half of 2014.</p> <p>According to a national law (Act no. 215/2004 Coll.), the provider must, without undue delay, take all necessary steps to ensure that the duty to recover the aid received is fulfilled. For this purpose, the provider will immediately request the beneficiary to return the aid; unless the time limit to recover or provisionally recover state aid follows from a Commission's decision, the time limit is to be set by the provider in the call. After the time limit to recover or provisionally recover public aid has expired and the aid has not been recovered, the provider shall decide to withdraw it from the beneficiary based on a special national legal regulation, or where this is not possible, file a court action against the beneficiary. Violation of the duty will result in the provider being imposed a fine of CZK 1,000,000 (Section 8a(3)(d) of Act no. 215/2004 Coll.).</p> <p>The rules for financial audit are laid down in national legislation. Act no. 218/2000 (the "budgetary rules") is the basic regulation governing the use of funds from the state budget, at the regional level, these procedures are governed by Act no. 250/2000 Coll. The area of financial audit in public administration is also regulated by Act no. 320/2001. This Act defines the organization and scope of financial audit exercised among public administration bodies, between public administration bodies and the applicants or beneficiaries of state financial aid and within public administration bodies. It shall specify the subject matter, main objectives and principles of financial audit.</p> <p>Unlawful and incompatible aid is regarded as a misuse of subsidies, which follows directly from the document on the granting of aid. The recovery of misused funds is carried out under a regime which is identical for all instances of misuse of state budget funds, i.e. the financial administration authority requires the beneficiary to return the aid received.</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>Detailed procedures for the investigation and enforcement in the case of irregularities (which also includes the provision of unlawful or incompatible aid) are described in the Methodology of Financial Flows and Audit prepared by the Ministry of Finance, which is binding for all managing authorities (MFFA for the programming period 2014–2020 is being prepared). If the provider detects discrepancies, it must submit the case without delay to the competent financial administration body for further proceedings; this body subsequently enforces the recovery of the unlawfully granted aid from the beneficiary. If it fails to recover the aid, it refers the case to a court having jurisdiction. Financial administration bodies perform their activities subject to territorial competence, thus ensuring sufficient administrative capacity. They are created by Act no. 456/2011 Coll., on financial administration of the Czech Republic, as amended, which defines their competence and activities and their territorial scope is defined in Section 8 of this Act.</p> <p>Financial audits of projects co-financed from ESI funds are ensured at all implementation levels; the structure of management and audit systems are headed by the relevant ministries acting in the capacity of managing authorities, the Ministry of Finance acting as the payment authority and responsibility of "winding-up" bodies, which, on the basis of the results of all audits and inspections, prepares a declaration on the winding up of support or project required by the EC before the final payment from EU funds.</p> <p>Duties and procedures for the recovery of state aid are also described in the managing document of programmes (manuals, decision conditions, contracts, etc.), which is subject to approval by the central coordination authority (in this case, the MoRD-NCA, as the coordinator of a single methodological environment).</p> <p>The provider has an obligation to provide the aid in accordance with all state aid rules, whether national or EU. The provider of aid which is subject to state aid rules cooperates with the central coordination authority (OPC, Ministry of Agriculture). Coordinating authorities and providers set programmes in accordance with specific legislation governing state aid rules. Before a programme is adopted at the national level, the programme provider consults the setting of conditions with the coordinating authority to ensure compliance with state aid rules. During the consultation on individual measures of support, the coordinating authority points out the risks associated with unlawfully granted state aid. When implementing the programme, the provider regularly checks compliance with the conditions of the programme. These checks are also carried out by the tax authorities.</p> <p>In the case ESI co-funded programmes, the managing authorities preparing these programmes also approach the MoRD-NCA coordinator, which evaluates the programmes and the subsequent managing documentation (including detailed setting of audits and project administration) with regard to compliance with state aid rules.</p> <p>Provider's audits of projects are carried out before the subsidy is provided, as well as</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>during project implementation. Checklists and statutory declarations of the applicant are used during the audit. The providers record and monitor the support provided in the MS2014+ and, where appropriate, also in their internal information systems. Procedures to administer state aid are set in the managing documentation of the programmes (manuals, calls, recipient guides), which restricts support in accordance with the degree of intensity of support, sets eligibility of expenditure under individual regimes, defines small and medium-sized enterprises and the related restriction of support intensity (by enterprise size), the rules of enterprises providing services of general economic interest, etc.</p> <p>In the case of the provision of de minimis support, the Czech Republic has had since 2010 a central register of small-scale aid. Before providing small-scale aid, the provider must check the central registry whether the granting of the aid to the recipient will not exceed the limit for de minimis and record data on the aid granted and on the recipient to the central register within the statutory time limit (5 working days). The failure to fulfil the duty is also penalised by the competent central coordinating body (pursuant to Act no. 215/2004 Coll.)</p> <p>Fulfilment of the reporting duty pursuant to Commission Regulation no. 659/1999 (or Commission Regulation no. 794/2004) and Commission Decision on the application of Article 106(2) of the Treaty on the Functioning of the European Union to State aid in the form of public service compensation granted to certain undertakings entrusted with the operation of services of general economic interest (2012/21 / EU) is coordinated by the OPC. The OPC invites support providers in sufficient advance to submit data on support granted under Decision 2012/21/EU, such a submission to be made every two years. Providers must submit the data on existing aid schemes for the calendar year to the OPC by 30 April. Failure to comply with the duty is also considered under the Act 215/2004 Coll. as an administrative infraction and is penalized up to CZK 300,000. The OPC subsequently records these data in SARI, through which they are electronically transmitted to the Commission. In the case of large providers, these data are entered into SARI directly and the OPC only checks them before they are finally sent to the European Commission. This activity of the OPC, as well as the duty of the providers to provide documents is provided in Act no. 215/2004 Coll.</p> <p>Act no. 215/2004 Coll. requires the providers and beneficiaries to present the coordinating authority, on its written request, with all documents and other information related to state aid or state aid programmes. Failure to comply with the duty is also considered under the Act 215/2004 Coll. as an administrative infraction and is penalized up to CZK 300,000.</p> <p>The data on aid provided from ESI funds are collectively included in the monitoring system MS2014+ and will also be available on the "central website" in accordance with the requirements of the revised EU legislation, as specified in Chapter 1.1. MS2014+ will replace the MSC2007 used in this period, (including individual IS Monit7+, thus</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>harmonizing the systems of relevant operational programmes, as well as simplifying the administration of project applications).</p> <p>Specific fulfilment in programmes is described by the managing authorities under each programme.</p>
			<p>Arrangements for training and dissemination of information for staff involved in the implementation of the ESI funds;</p>	<p>Yes</p>	<p>www.uohs.cz/cs/verejna-podpora/akuality-z-verejne-podpory.html</p> <p>http://www.vzdelavninsr.cz/</p> <p>www.strukturalni-fondy.cz</p> <p>http://www.strukturalni-fondy.cz/cs/Fondy-EU/2014-2020/Metodicke-pokyny/Metodika-rozvoje-lidskych-zdroju</p>	<p>Currently, the OPC, as the central coordinating authority for state aid, provides training to state aid providers (local authorities, state administration authorities, managing authorities) and audit authorities, both at the request of these authorities and of its own initiative. The feedback from the training is evaluated through questionnaires for trainers or training institutions. As part of the training, the OPC increasingly encounters specific problematic questions in the field of state aid, which indicates increased awareness about the issue among providers. The OPC also organizes an annual conference in the field of state aid, which focuses on current issues including selected cases from the decision practice of the European Commission in the field of state aid.</p> <p>At the horizontal level, there is central training of entities involved in the implementation of the ESI project funds through projects from the Operational Programme Technical Assistance within the Education System, the content of education and qualified lecturers being provided by central coordination authorities (e.g. OPC employees also work as lecturers). The frequency of training depends on the requirements of individual entities or at the discretion of the central authorities (e.g. training organised due to the need to update information, adoption of new regulations by the EC). The area of education is included in the Guidance Note on Human Resources Development in the Programming Period 2014–2020 and the Programming Period 2007–2013 (Government Resolution no. 444 of 16 July 2014). The overall objective of the Guidance Note is to set uniform requirements to ensure quality administrative capacities involved in the implementation of the objectives of the Partnership Agreement and individual activities in the implementation of programmes, and one of the specific objectives of the Guideline Note is to create a system of training for the employees who are involved in the implementation of EU funds in order for the system to meet their needs at their position described in the control documents of programmes, management and coordination of the PA, and create conditions to promote the principle of transparency and anti-corruption. The training provides for the conditions for stabilising and motivating implementation structure employees in relation to the needs of their professional growth and improvement of knowledge and skills. The offer of educational activities depends on the objectives of each programme and individual education plans created during employee appraisal. The training event dates are published on the Training and Education System's website. Educational events are reviewed regularly based on participants' feedback obtained from evaluation questionnaires (in order to optimize efficiency). Participants can also access the training and education event presentations from the e-library at the Training and Education System's website. The Education System is implemented on the basis of the MoRD-NCA's cooperation with representatives (education coordinators) from individual</p>

Applicable general ex-ante conditionality at national level	Priority axis or axes to which the conditionality applies	Ex-ante conditionality fulfilled: Yes/No/Partially	Criteria for fulfilment	Criteria fulfilled: Yes/No/Partially	References (for fulfilled ex-ante conditionalities)	Explanation
						<p>implementation entities, who submit their requirements for educational events under the Education System to the MoRD-NCA twice a year, and all issues of the Education System for the 2014-2020 programming period will be discussed by the Administrative Capacity Working Group (the NSRF Education Working Group in the 2007-2013 programming period).</p> <p>The above is complemented by ongoing training of the implementation structure staff at the programme level.</p> <hr/> <p>The MoRD-NCA (in collaboration with the OPC) issues guidance documents for individual areas of state aid (e.g. completion of the Manual of Services of General Economic Interest, Documents for Methodological Recommendations for State Aid are in the implementation phase). The OPC also ensures that all relevant information provided by the European Commission in matters of state aid are passed to providers (see e.g. information on the procedure to extend programmes in the first half of 2014, information on the validity of updated regulations, etc.).</p> <p>Dissemination of information and mutual consultation also take place at the Working Group regarding the issue of state aid (WG established at the MoRD), whose members include various entities involved in the implementation of ESI Funds (representatives of the MoRD-NCA, OPC, certification and audit authority, managing authorities, the Office of the Government, Association of Towns and Municipalities, the Association of Regions). The WG was established at the end of 2013 with a view to allow direct negotiation and exchange of experience between stakeholders. The Working Group on the issue of state aid serves as a basic platform to deal with all issues regarding state aid rules when creating and implementing various operational programmes, including a focus on the ex-ante conditionalities set by the European Commission in terms of state aid in relation to the use of structural and investment funds. The leadership of the WG includes a representative of the MoRD-NCA and the OPC. The WG is convened as needed (either on the initiative of the central coordinators or request of a member), information is also exchanged by email communication. The WG serves as a platform for the exchange of information and experience. At its meetings, the members also raise questions arising from practice which are either dealt with directly or in subsequent written communication (depending on the complexity of the question). Given the broad range of areas which state aid covers, the WG will also be convened in with a reduced number of participants according to the specific topics (e.g. services of general economic interest, state aid in science and research or environmental protection). The participants make minutes of each meeting, which specify any tasks and deadlines for their completion.</p> <p>All current information on state aid is available on the OPC website: www.uohs.cz/cs/verejna-podpora.html.</p> <p>All relevant information on ESI fund is available at: www.strukturalni-fondy.cz.</p>

						Specific fulfilment in programmes is described by the managing authorities under each programme.
			Arrangements to ensure administrative capacity for implementation and application of Union State aid rules.	Partially	www.compet.cz , www.mze.cz , www.strukturalni-fondy.cz	<p>The central coordinating authority for state aid as a whole is the OPC or the Ministry of Agriculture (laid down by Act no. 215/2004 Coll.). Workers of coordinating bodies represent the Czech Republic at the European Commission advisory committees or other multilateral meetings on the various proposals put forward by the EC, participate in international seminars aiming to continuously improve their professional qualifications. Providers may at any time approach the coordinating authority with questions, whether in writing or by telephone. Before the approval of the programme, the coordinating authorities cooperate with the managing authorities to set the programme in accordance with state aid rules, and give them recommending opinions in terms of state aid rules (this role of coordinating authorities is enacted in Section 3(3) in Act 215/2004 Coll.)</p> <p>In addition to its other activities, the Ministry for Regional Development (MoRD-NCA) also acts in the capacity of a coordinating and advisory body for the managing authorities in the area of state aid for projects co-financed from ESI funds. A department whose agenda includes state aid has been established at the MoRD-NCA. The employees of this department are continuously trained in state aid, and also participate in international seminars with the aim of continuously improving their skills. The MoRD-NCA employees cooperate with the managing authorities in the preparation of programmes and act in the capacity of a consultative body for all entities involved in the implementation of ESI funds. The MoRD-NCA employees also closely cooperate with the OPC, and also approach the OPC where they need to consult specific cases of state aid.</p> <p>Also, each managing authority designates a certain number of persons responsible for matters of state aid; these persons serve as contacts for central coordinators (MoRD, OPC, MA).</p> <p>All information (legislation, methodologies, manuals and other documents relating to the application of state aid rules) are available to the general public on the website of central coordinating authorities (www.compet.cz, www.mze.cz, www.strukturalni-fondy.cz); these sites are regularly updated, with new information and regulations being added.</p> <p>The MoRD-NCA (in collaboration with the OPC) issues guidance documents for individual areas of state aid (e.g. completion of the Manual of Services of General Economic Interest, Documents for Methodological Recommendations for State Aid are in the implementation phase). Methodological documents are created with regard to current needs – e.g. regarding the modernization of the state aid rules by the EU (new legislation), the experience of individual providers (especially with their problems and confusions) or because of the need to further clarify and explain the specifics of providing state aid (e.g. the concept of a "single undertaking" within the application of de minimis rules or the calculation of gross grant equivalent). External experts are also involved in the</p>

						<p>creation of guidance documents, where the creation of certain methodologies is awarded by means of a public contract to experts from the general public who are in the coordinated in the performance of the contract by the contracting authority (central authority). These experts enhance the documents thanks to their experience and knowledge resulting from practice.</p> <p>Providers having specific problems can also at any time approach the coordinating authorities responsible for state aid (OPC, Ministry of Agriculture, MoRD-NCA), who will provide them with an opinion and, where appropriate, cooperation in the proceedings before the Commission or before the state aid is notified to the Commission. Coordinating authorities initially analyze the measure/programme concerned in terms of state aid rules and then, where applicable, suggest a suitable instrument based on which the relevant measure can be provided. If the measure concerned must be notified to the European Commission, they cooperate with providers on filling out the notification form as well as on the response to the questions of the European Commission raised under the notification procedure.</p> <p>Specific fulfilment in programmes is described by the managing authorities under each programme.</p>
<p>6. The existence of arrangements for the effective application of Union environmental legislation related to EIA and SEA.</p>	<p>All PAs of the OP E 2014–2020 and other operational programmes (except OP TA and OP A)</p>	<p>Partially</p>	<p>Arrangements for the effective application of Directive 2011/92/EU of the European Parliament and of the Council (EIA) and of Directive 2001/42/EC of the European Parliament and of the Council (SEA);</p>	<p>Partially</p>	<p>The relevant provisions of Act no. 100/2001 Coll., on environmental impact assessment concerning the assessment of environmental impact of concepts.</p> <p>http://portal.cenia.cz/eiasea/static/sea_legislativa</p> <p>Section 19 of Act no. 100/2001 Coll., on environmental impact assessment:</p> <p>http://portal.cenia.cz/eiasea/static/eia_le</p>	<p>All requirements of the SEA Directive are met in the Czech legislation.</p> <p>Within the infringement proceedings on the EIA Directive, a solution has been agreed at the meeting with the European Commission on 21. 1. 2014, the solution consisting in amending Czech legislation, which will resolve all the complaints of the European Commission by the end of 2014. The articulated draft amendment of the EIA Act, the Building Act and related legislation was submitted in March 2014 for inter-ministerial comment procedure, which was completed at the end of April 2014. The amendment was subsequently revised based on comments from the European Commission and approved by the European Commission on 10 June 2014. Now the process will continue in accordance with the determined schedule so that the amendment becomes effective on 1 January 2015. The amendment also includes participation of the public and its access to judicial protection.</p> <p>As for the checking of the EIA process quality, the ME is currently applying the system of authorized persons preparing the EIA documentation and external opinions on EIA, which represent another tool to check the quality of information contained in the EIA documentation. The system of authorized persons in the Czech Republic goes beyond the scope of the EIA Directive, as the performance of the activities of persons authorized to prepare documentation or opinions in the EIA process is conditional on such a person having passed a relevant professional examination. High demands placed on the</p>

3.1. Specific actions have been carried out to underpin the promotion of entrepreneurship taking into account the Small Business Act (SBA).	measures have been put in place with the objective of reducing the time and cost involved in setting-up a business taking account of the targets of the SBA;	Draft legislative solution to reduce judicial fees and notary rewards for starting businesses (companies). The legislation currently in force requires the registration courts to register an entry in the Commercial Register within five days in standard cases. If a registration court fails to register an entry within this time limit, the registration is deemed to have been completed on the day following the expiry of the deadline (fiction of registration). The Act on the Public Registers of Legal and Natural	30. November 2016	MJ

Partially fulfilled and unfulfilled <u>thematic ex-ante</u> conditionality	<u>Non-fulfillment criteria</u>	Measures to be taken	Due Date (deadline)	Bodies responsible
		<p>Persons also allows companies and cooperatives to be registered in the public register by a notary if the document forming the basis for registration in the public register is a notarial deed (Section 108 et seq. of the Act). This holds true even for initial registrations. If a notary public has all the supporting documents for registration in the Commercial Register available, they will be able to make the registration within a single day. The cost-cutting measures may include in particular the significant extension of cooperation among the different systems of state administration and creating a new "basic register" system by Act no. 111/2009 Coll. of 26 March 2009 on basic registers, and its use in creating companies. Examples of measures may include the removal of the duty to accompany an application for the registration of a person with an excerpt from the Land Registry to establish a legal cause for the use of premises which constitute the registered office of the person subject to the registration. Other measures also include the above-mentioned possibility of direct registration by notaries as well as the newly established minimum contribution to a limited liability company of only CZK 1,00. Costs will also be reduced by means of connecting the basic registers in the form of cost reduction in the case of applications for changes to the register, or by simplifying the process of liquidation of companies in some cases.</p> <p>Comments concerning the area of competence of the Ministry of Justice: Regarding the cost of starting a business:</p> <p>Currently the Ministry of Justice is preparing a legislative solution that will decrease the judicial fee for initiating the public registry proceedings for the first entry of an entity/individual in the public register, with the exception of joint-stock companies and associations, in accordance with the European Commission's requirements, i.e. in a way that the costs associated with starting up a business are around EUR 100. At the same time, there will be a reduction that even exceeds the European Commission's requirements associated with the court fee for initiating the public registry proceedings associated with changing or supplementing an entry. The legislative solution is being prepared in a way that will ensure its submission to the Government in September 2014 and thus it could enter into force in November 2016.</p> <p>There are also other measures that would effectively reduce the total cost of setting up a business – e.g. the significant enhancement of cooperation between the individual state administration systems, and the creation of a new system of "basic registers" by means of Act No. 111/2009 Coll. of 26 March 2009, on basic registers, and its application to the setting up of enterprises, as well as the elimination of the duty to attach an extract from the Land Register together with the application to register a person and submit an extract from the Criminal Register as a proof on no prior convictions for each partner. The cost of setting up a business is also affected by the fact that, pursuant to the provisions of section 142 of Act No. 90/2012 Coll., on business companies and cooperatives (the Business Corporations Act), the minimum contribution to a limited liability company has</p>		

Partially fulfilled and unfulfilled <u>thematic</u> ex-ante conditionality	<u>Non-fulfillment criteria</u>	Measures to be taken	Due Date (deadline)	Bodies responsible
		<p>since 1 January 2014 been newly established at just CZK 1.00. The old Commercial Code, the required capital for a limited liability company was CZK 200,000.</p> <p>All of these measures in their combination bring about reduced costs for small and medium-sized enterprises both when setting up and throughout their existence.</p> <p>Regarding the time necessary to start a business:</p> <p>The time required to start a business is being reduced as a result of the notaries being able to make registrations in public registers directly, if they have all the necessary documents (pursuant to the Public Registers Act).</p> <p>The legislation currently in force requires the registration courts to register an entry in the Commercial Register within five days in standard cases. If a registration court fails to register an entry within this time limit, the registration is deemed to have been completed on the day following the expiry of the deadline (fiction of registration).</p> <p>Preparation of articulated draft bill: 4/2014</p> <p>Comment procedure on the amendment and its completion: 5–6/2014</p> <p>Consideration of the amendment by the Legislative Council of Government: 7/2014</p> <p>Submission of the draft amendment to the Government: 9/2014</p> <p>Consideration of the amendment in the House of Representatives: 10-11/2014</p> <p>Consideration of the amendment in the Senate: 12/2014 – 1/2015</p> <p>Signing of the amendment by the President of the Czech Republic and its publication in the Collection of Laws: 2/2015</p> <p>Entry into effect: 11/2016</p>

IIA / Partially fulfilled and unfulfilled GENERAL ex-ante conditionalities

Selected ex-ante conditionalities are coordinated by entities at the national level, but also by the managing authorities. Therefore, the Partnership Agreement includes fulfilment at the national level (with reference to the specific fulfilment at the MA level); individual programmes then describe the fulfilment of the relevant criteria and ex-ante conditionalities in relation to the given programme (with reference to the description at the national level in the Partnership Agreement).

Partially fulfilled and unfulfilled <u>general</u> ex-ante conditionality	Non-fulfilment criteria	Measures to be taken	Due Date (deadline)	Bodies responsible
4 The existence of arrangements for the effective application of Union public procurement law in the field of the ESI Funds.	Arrangements for the effective application of Union public procurement rules through appropriate mechanisms;	The MoRD will provide for the Commission a progress report regarding the delay in the decision-making of the OPC.	30. June 2016	MoRD, OPC
	Arrangements to ensure administrative capacity for implementation and application of Union public procurement rules.	Preparation of an analysis of the need for administrative capacities; in case problems are identified, to be solved at programme level.	31. December 2014	MoRD, MA
