

# RESOLUTION OF THE GOVERNMENT OF THE CZECH REPUBLIC

of 1 November 2023, No. 808

## on Czech SMR Roadmap

### The Government

- I. **acknowledges** the document Czech SMR Roadmap – Applicability and Contribution to Economy (hereinafter referred to as „Roadmap“), enclosed in Part III of material No. 917/23;
- II. **tasks**
  1. the Minister of Industry and Trade with
    - a) Using the Roadmap as an input for the State Energy Policy,
    - b) preparing an analysis of financing and state aid methods for the construction and analysis of ownership and operation models for small and medium-sized reactor projects and submit information to the Government with recommendations for further action by 30 June 2024,
    - c) actively negotiating and supporting the involvement of Czech companies in the supply chains of foreign designs of small and medium-sized modular reactors,
    - d) identifying preferred sites for small and medium-sized reactors in the Czech Republic and negotiating with investors on the preparation of related and induced investments and associated infrastructure at the sites of the planned build of small and medium-sized modular reactors,
    - e) submitting information to the Government on the possibilities of using the previously concluded intergovernmental agreements for cooperation in the field of small and medium-sized modular reactors by 1 January 2024 and, if necessary, start preparing the extension of the existing agreements or initiate activities aimed at concluding new agreements, to accelerate the development of selected small and medium-sized modular reactor technologies;
  2. the Minister of Industry and Trade and the Chairperson of the State Office for Nuclear Safety with proposing the streamlining of licensing and permitting processes for small and medium-sized modular reactor technologies in the forthcoming amendments to the legislation on the preparation of nuclear new build;
  3. the Minister of Industry and Trade in cooperation with the Deputy Prime Minister for Digitisation and Minister of Regional Development with examining, in the Spatial Development Policy of the Czech Republic, the possibility of establishing a task for ministries and central administrative authorities and for spatial planning to assess the need to define

the sites listed in the Roadmap for small and medium-sized modular reactor technology in the spatial planning documentation of regions and municipalities;

- III. recommends** to the Governors and the Mayor of the Capital City of Prague to cooperate in the implementation of the Roadmap tasks.

**For action:**

Minister of Industry and Trade,  
Deputy Prime Minister for Digitisation and Minister of Regional Development,  
Chairperson of the State Office for Nuclear Safety

**For information:**

Governors,  
Mayor of the Capital City of Prague

prof. PhDr. Petr Fiala, Ph.D., LL.M.  
Prime Minister
