## Place Standard Tool

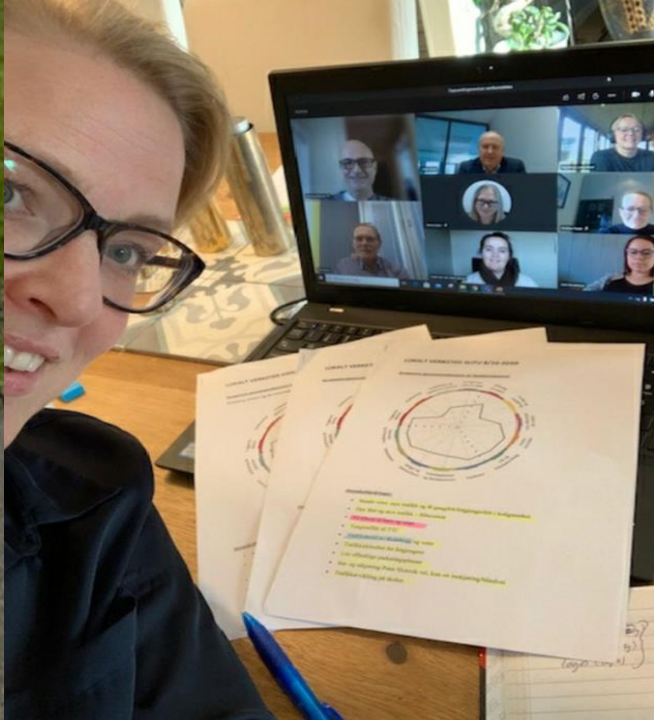

- A simple framework to structure conversations about place
- Whether the place is well-established, undergoing change, or is still being planned
- 14 elements – physical og social
- Questions for discussion on all 14 elements

## Our purpose with using Place Standard Tool

- Increase knowledge about our different cities and rural areas - Indre Østfold is a new municipality.
- Stimulate civil society to initiate projects in their communities (apply for projects fund)

## How we worked with Place Standard Tool

- Focus on process – IGP method
- Challenges and possible measures
- Politicians - on listening post
- Citizens' arena
- Spreading the knowledge within the organisation

## Challenges according to our inhabitants:

- Recreational areas – play and sports
- Lights – outdoor areas
- Transportation
- Lack of places to meet
- From word to action!
- Walking and cycling paths
- Areas and buildings that are not maintained
- Traffic safety
- Down town housing not just for the elderly

# A treasure chest and a multifunctional tool

- Citizen participation
- Rural development
- Public health
- Co-creation/production
