**LEAVE
NO ONE
BEHIND**

Roles and responsibilities – The Norwegian Public Health Act

The Norwegian Public Health Act - basic principles

Equalize social health inequalities

«Health in all policies" – a multidisciplinary and cross-sector approach

Sustainable development

Focus on health promoting and preventative measures

Participation

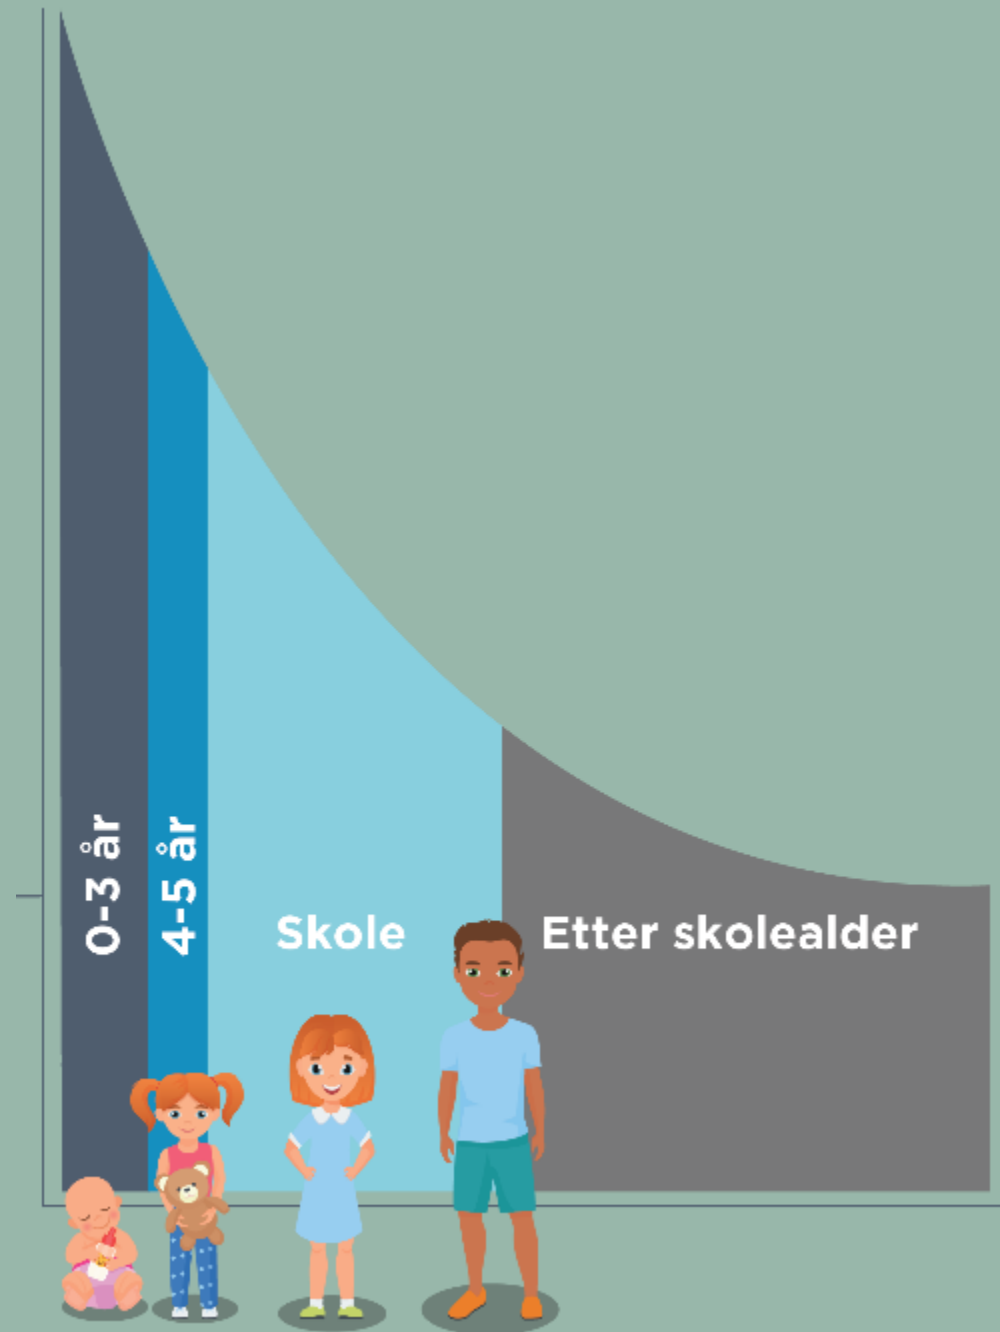

Main challenge: Social inequality in health

Socioeconomic status

Socio-economic return on investment in people

Measures

What we focus on

Lifestyle

Living and working conditions

Social relations

Economy

Mental health

Housing conditions

Education

What we ignore

Conditions of upbringing

Housing conditions

Education

**Social network
and relationships**

Income

Working conditions

Local community

**Access to
healthcare**

Equal offers do not give equal results

Reduce inequality in:

Income
Upbringing
and
education
Housing
Employment

Reduce inequality in:

Lifestyle
Physical and
social
environmental
factors

**Reduce inequality in health
and consequences of ill
health**

Healthcare
services

**Equal
health**

An illustration showing a group of people in a meeting. In the foreground, a person with dark hair is seen from the back, looking towards the center. In the background, another person is visible, holding a document. The document has a logo and the word 'Våg' at the top, and a list of dates from 06/16 to 02/16. The background is a mix of white, grey, and blue tones, suggesting an office or meeting environment.

Incorporate goals about health and wellbeing into the planning and management system

Create structures that promote and reward collaboration

Assess the public health consequences of all political cases

Political ambassadors explaining why they are «public health politicians»

I believe that if people understood how important good health and wellbeing were for public finance,
