	08:30–10:00	Working group meetings
Room: Amazon 0.1.11		Environment and Health Working Group The Environment and Health Working Group was established after the 6th WHO Ministerial Conference on Environment and Health in Ostrava, Czechia in 2017. The topics in this domain are broad, diverse and urgent, and with lessons from COVID-19, the Environment and Health Working Group restarted in summer 2021. The aims are to provide a platform for cities that want to strengthen work on environment and health and to develop tools and guidance materials and to disseminate results to the WHO European Healthy Cities Network and national healthy cities networks. The Working Group works closely with the WHO European Centre for Environment and Health and is chaired by the City of Utrecht. The Working

		<p>Group meeting during the WHO European Healthy Cities Network Annual Business Meeting and Technical Conference is an open meeting and will provide an opportunity for further knowledge exchange beyond the membership of the Working Group.</p> <p>The main topics will be One Health at the local level and the 7th Ministerial Conference on Environment and Health, with both topics to be addressed in group discussions and brainstorming. Since the Working Group is setting its agenda for 2023 and beyond, we are open for new participants as well.</p>
		<p>Please click the link below to join the webinar: https://who.zoom.us/j/97648448405</p> <p>Password: HCN2022!</p>
Room: Press room		<p>Healthy Ageing Task Force Meeting</p> <p>The Healthy Ageing Task Force (HATF) is the longest standing subnetwork technical working group. After the onset of the COVID-19 pandemic the HATF convened 12 cities to share experiences on how they have responded. The HATF is welcoming cities from the network to join the meeting and learn more about how they can become engaged in creating age-friendly environments.</p>
		<p>Please click the link below to join the webinar: https://who.zoom.us/j/92839287858</p> <p>Password: HCN2022!</p>
Room: Atlantic Ocean	10:00–10:30	<p><i>Coffee break</i></p> <p><i>Coffee, water and refreshments will be served in the Atlantic Ocean</i></p>

Room: Auditorium 2+3		<p>WHO side event: Turning down the alcohol flow: European Framework for Action on Alcohol, 2022–2025</p> <p>Alcohol consumption and its related burden of disease are responsible for some of the greatest health and societal challenges faced by countries in the WHO European Region. One in every 10 deaths in the Region is caused by alcohol, amounting to almost 1 million annually in total, and many of these deaths occur at a very young age.</p> <p>Alcohol is a causal factor for more than 200 diseases, health conditions and injuries and is a Group 1 human carcinogen, causally linked to seven types of cancer. In September 2022 at the 72nd session of the WHO Regional Committee for Europe in Tel Aviv, Israel, the 53 European Member States unanimously adopted the European Framework for Action on Alcohol, 2022–2025, which draws on the best evidence to propose priority policies that countries can adopt to reduce alcohol consumption and harm.</p> <p>This side event describes the priority areas of the Framework and provides the opportunity to discuss the implications for cities. Participants are invited to join further discussions to consider establishing a WHO European Healthy Cities Network working group on alcohol.</p>

Session	Time	Thursday, 24 November 2022
	08:30–10:00	Working group meeting
Room: Press room		<p>Alcohol</p> <p>Alcohol consumption and its related burden of disease are responsible for some of the greatest health and societal challenges faced by countries in the WHO European Region. This session follows up on the side event on turning down the alcohol flow: European Framework for Action on Alcohol, 2022–2025 held on 23 November 2022 and the webinar on reducing alcohol consumption and harm in healthy cities held on 31 March 2022.</p> <p>We will revisit the priority areas of the European Framework for Action on Alcohol, 2022–2025, also providing an update on the new WHO/EU Evidence into Action Alcohol Project (EVID-ACTION), which is being implemented as part of the Europe’s Beating Cancer Plan of the EU. Participants will be invited to further explore the needs of cities and to discuss suggestions for action for a WHO European Healthy Cities Network working group on alcohol, referencing some options that have been prepared by WHO and to agree on the next steps.</p>
		<p>Please click the link below to join the webinar: https://who.zoom.us/j/99852237202</p> <p>Password: HCN2022!</p>
Parallel Session D	08:30–10:00	D1: Workshop: Place Standard – walking the talk

Rooms: Atlantic Ocean/ Indian Ocean	12:00–13:00	Lunch
Room: Auditorium 1	12:00–13:00	WHO Side Event Lunch: Regions for Health Network Celebrating 30 years of active collaboration, Regions for Health Network (RHN) is a Network of 39 regions and associated members from 28 countries in the WHO European Region. Regions have significant political, technical and administrative functions in areas of public health, health systems and social care, and influence regional sectorial policies in areas like environment, nature protection, housing, finance, education, food, employment, transport among others. The Network is instrumental in efforts “to support local living environments that enable health and well-being”. Historically healthy cities and regions for health have been working together and are allies towards achieving better health and well-being for our people and the planet. 1. How to further strengthen cooperation between regions for health and healthy cities

		<p>2. Explore lessons learnt on best practices for joint action on health and well-being</p> <p>3. Discuss transformation needs for better joint action</p>
		<p>Please click the link below to join the webinar: https://who.zoom.us/j/99128763375</p> <p>Password: HCN2022!</p>
